

Hercule Design 3D Steel Sections

If the folder HD-Steel already exists on your c: drive then delete these files before installation.

Installation Instructions

1. Unzip the Zip file into a folder named C:\HD-Steel

2. Type APPLOAD on AutoCAD's command line
3. Hit the "Contents...." Button, then hit the "Add...." Button.

4. Point to the following file: C:\HD-Steel\HDS.lsp
5. Click the "Add" button then close all dialog boxes. Close then restart AutoCAD & you're ready to start using the program

6. Type "HDS" or click on the icon () to use the program

Note: If the Icon isn't on screen then Right-Click on AutoCAD's toolbar border and select the Hercule _Steel_Shapes Toolbar.
